High Quality

Our products are produced with the highest quality, ethical standards and in accordance with the international standards

Resistant

Our abrasion and wear resistant products come with different heights, colour options and unique characteristics

Long Lasting

Artificial turfs are easy to maintain and cheap, as well as have a very long life with small maintenance

Hybrid Grass is basically a combination of synthetic grass and natural grass. Hybrid Grass is a natural grass reinforced by a combination of artificial turf fibers. FIFA accepts Hybrid Grass as Natural and classifies it as "Reinforced Natural Grass". This allows multi-functional use of their fields and offers extra benefits to clubs.

Natural Appearance

It is produced with monofilament yarns for aesthetic and more natural appearance

High UV Resistance

It is produced with special UV resistant additive. Besides being resistant to UV rays, it is also resistant to cold weather

Nature Friendly

Our products are manufactured with environmental awareness and consist of recyclable materials with the use of effective technology and com-
